#BuildingCitiesEmpoweringCommunities

INTENTIONAL LEADERSHIP

SIGNATURE TALK

The impact you drive with the personal decisions you make

In this session attendees will be able to learn the value of taking ownership of their lives and the impact they can drive in their communities. The key takeaways will be the following: action steps needed to find their tribe, outline for a purposeful "why" and a clearer vision of the opportunities they are leaving un-turned. This session reveals the blind spots of those running through the motion and allowing life to happen to them instead of for them.

CULTURAL RESPONSIBILITY

SIGNATURE TALK

Owning your background and finding your personal identity

In this session attendees will learn the impact culture drives in their everyday life and the influence their diversity/heritage plays in the corporate and social world. Attendees will gain perspective on the questions and mapping they can follow to understand their role and the power they have to drive positive change.

WORKSHOPS

POTENTIAL BREAKOUT SESSIONS

If you require a different topic to be covered, presentations can be tailored to your audience needs.

Below are tailored workshops that have been delivered in the past:

- Building a Future in STEM
- Personal Branding
- Leadership Development
- Overcoming Failure
- Finding Your Why
- Building Your Tribe
